# Anatomy & Physiology for Coders
Written by Coders, for Coders! AHIMA and AAPC CEUs!

Course Description:
Anatomy & Physiology for Coders will prepare you for the anatomy-intensive requirements of ICD-10-CM/PCS coding.

The course includes weekly lesson plans based on one or more chapters from the textbook *Fundamentals of Anatomy and Physiology* by Donald Rizzo. Additional bonus content includes disease processes, frequently prescribed drugs, and common laboratory tests.

The 12-week curriculum provides a comprehensive and complete review of the major body systems. Course emphasis will focus on what coders need to know in order to learn and use ICD-10-CM and -PCS.

But the benefits start now! Anatomy & Physiology for Coders provides coding professionals with immediate knowledge and increased proficiency in ICD-9-CM and CPT-4 coding

Course Summary:
- Major body systems and common diseases and disorders are covered, as well as laboratory tests and commonly prescribed drugs
- Material emphasizes what coders need to know for current ICD-9 and CPT coding as well as that needed to learn ICD-10-CM and –PCS
- 12 week curriculum; students are allowed 15 weeks to complete the course
- Lesson notes and 1-2 textbook chapters per week; 16 chapters of textbook content
- 4-8 hours of work required per weekly lesson; time required will vary depending on student's knowledge and experience
- 24 x 7 online access, anywhere in the world

Anatomy & Physiology for Coders
Written by Coders, for Coders! AHIMA and AAPC CEUs!

Pre-requisites:
The student should have coding experience and/or recent coding education. This education may include completion of a coding certificate program, or having earned an AS or BS degree in Health Information Technology or Health Information Management.

Elements:
- *Fundamentals of Anatomy and Physiology* by Donald Rizzo, text book and CD-ROM
- Multimedia including videos and interactive educational games
- Full-color anatomical drawings to amplify course content
- Test Yourself Quizzes and Weekly Assessments assure mastery of material

CEU Credits:
Students who successfully complete the entire course can receive Continuing Education Credits from AHIMA and AAPC.

24 AHIMA CEUs

Students taking Anatomy & Physiology for Coders are eligible to receive 24 AHIMA CEUs: This program has been approved for continuing education units (CEUs) for use in fulfilling the continuing education requirements of the American Health Information Management Association (AHIMA). Granting prior approval from AHIMA does not constitute endorsement of the program content or its program sponsor.

6 AAPC CEUs

Students taking Anatomy & Physiology for Coders are eligible to receive 12 AAPC CEUs: This program has the prior approval of AAPC for 12 continuing education hours. Granting of prior approval in no way constitutes endorsement by AAPC of the program content or the program sponsor

Pricing: Anatomy & Physiology for Coders: $220 for the course plus $85 for the textbook
