CEE: Council for Excellence in Education

The Council for Excellence in Education (CEE) is an AHIMA council established in 2011 as the leading force in education strategy for the profession, guiding the academic community through improvements to education, coursework, and the curricula of associate, baccalaureate, and graduate programs in HIM and related studies.

CEE Vision: Ensure education is positioned as the cornerstone of health information professions through communication, collaboration, innovation, and research.

Council for Excellence in Education
Health Informatics and Health Information Management

CCHIIM: The Commission on Certification for Health Informatics and Information Management

CCHIIM provides strategic oversight of all AHIMA certification programs. This standing commission of AHIMA is empowered with the sole and independent authority in all matters pertaining to both the initial certification and ongoing recertification (certification maintenance) of HIIM professionals.

CCHIIM mission: Through certification, CCHIIM assures the competency of professionals practicing health informatics and information management worldwide.

AHIMA CCHIIM COMMISSION ON CERTIFICATION

CAHIIM: Commission on Accreditation for Health Informatics and Information Management Education

CAHIIM accredits associate and baccalaureate degree programs in health information management, and masters' degree programs in the health informatics and health information management professions in the United States and Puerto Rico.

CAHIIM Vision: CAHIIM is the globally recognized and trusted accreditation organization for Health Informatics and HIM education programs to ensure the development of a workforce that meets the challenge of an information-intensive environment and its impact on global health.

CAHIIM accreditation brings accountability to the broad realm of health information education.

CAHIIM

CAHIIM Mission

- Establishing and enforcing accreditation Standards
- Recognizing programs that meet the Standards
- Assessing student achievement
- Respecting educational innovation and diversity
- Recognizing academic institutions' autonomy
- Emphasizing the principle of volunteerism and peer review
- Embracing a culture of continuous quality improvement

CAHIIM

AHIMA's 2018 Report to the CSAs: INSPIRING LEADERSHIP • INFLUENCING CHANGE

CCHIIM serves the public by establishing, implementing, and enforcing standards and procedures for certification and recertification of HIIM professionals. CCHIIM provides strategic oversight of all AHIMA certification programs.

AHIMA CCHIIM

cee

The CEE is the leading force in education strategy for health information professions, guiding the academic community and industry stakeholders through innovations in academic programs, curricula, and resources.

CAHIIM is an independent accrediting organization whose Mission is to serve the public interest by establishing and enforcing quality Accreditation Standards for Health Informatics and Health Information Management (HIM) educational programs.

AHIMA American Health Information Management Association® 90 YEARS 1928–2018

IFHIMA: International Federation of Health Information Management Associations

Formerly known as the International Federation of Health Records Organizations (IFHRO), IFHIMA was established in 1968 as a federation of national member organizations from around the world. It acts as the "global voice" of the HIM profession to support delivery of healthcare services and activities and to share best practices.

IFHIMA's vision is a world where national HIM associations collaborate on a global level in the development of the HIM workforce and promote the use of enhanced clinical documentation and health information management practices, thereby contributing to better health for human beings worldwide.

IFHIMA
International Federation of Health Information Management Associations

IFHIMA Mission

IFHIMA's mission is to strengthen the health information management profession globally.

- sharing the latest news in the field of HIM as well as sharing best practices
- supporting its member nations and their members in advancing the need for well educated, trained HIM professionals who will ensure high-quality documentation along the continuum of care
- assisting developing countries in the establishment of HIM associations, their workforce, as well as nations that have mature, evolving health systems and delivery organizations
