

CYBERSECURITY *for HIM Professionals*

WEBINAR SESSION

Date: Wednesday, April 4, 2018

Time: 1:00 – 2:30 PM EST

PROGRAM OBJECTIVES

Participants will:

- Gain an insider's view of cybersecurity tactics that are used to steal personal health information
- Gain an understanding of cybersecurity issues specific to HIM
- Be provided with recommendations to help you better safeguard your organization

WHO SHOULD ATTEND

Health Information Management directors and managers, Chief Information Officers, HIPAA Privacy & Security Officers

AGENDA

- I. Understanding the Current State: why are healthcare breaches on the rise and who is behind the attacks?
- II. Making Sense of the Noise: deep web, dark web, ransomware, malware, social engineering; these terms and concepts will be demystified in plain English and with clear analogies to help you better understand not only what it means, but what it specifically means to you!
- III. Recommendations & Results: we will examine what to consider when it comes to your remote workforce, your internal teams, patient portals, partner portals, and the overall security of your organization.
