About Coding and Chargemaster Specialists (CCS)

Improving Compliance, Revenue and Cash Flow, One Code at a Time.

CCS has been specializing in Chargemaster Services, Contract Coding and Coding Audits exclusively for over 30 years. We are purpose-built with a carefully cultivated team of experts in a company that has low turnover, high flexibility and exceptional customer service.

At CCS, we are selective about the clients we work with to ensure we maintain the customer service we are known for and fulfill the promises we make. We view your challenges as our own, allowing us to become a trusted extension of your team. Our entire company is located in the United States. With our nationwide perspective and flexibility, we are able to institute change and foster continuous improvement.

Keeping it Simple. 3 Service Areas for Hospitals and Physicians.

CHARGEMASTER SERVICES:

CCS is proud to offer an array of Chargemaster Services: The Comprehensive Chargemaster Review, Chargemaster Desk Review, Chargemaster On-going Maintenance, Complete Chargemaster Outsourcing, Revenue Integrity Resources, Standardization, New Chargemaster Builds, Charge Comparison, Strategic Pricing and Price Transparency Services. Our consultants have a unique background of clinical expertise combined with credentialed coding.

CONTRACT CODING SERVICES:

CCS offers flexible, "as needed" coding services with same-day turnaround and an impressive 98% accuracy rate. Our coders are all AHIMA credentialed with an average of 10 years of experience. We can code all patient types for both hospital and physician based. We offer low turnover for maximum efficiency and every client has a dedicated contact who understands the key personnel, the EMR and client policies.

CODING AUDITS:

Our auditors, separate from our coding staff, are a domestic and credentialed team with a minimum of 10 years of experience dedicated strictly to coding auditing and education. We provide both pre- and post-billing audits. CCS offers education in several formats (one on one, roundtable, webinar) tailored to our findings, with AHIMA- approved CEUs available upon request. For better understanding of coding acumen, we audit all codes not just those that would change reimbursement.
